

5/21/1996

Mr. Thomas called on Mary Catherine Martin to give the report of the Restoration Committee. Ms. Martin described our loss in greater detail. She reported that during the fire we lost some archival material including some photographic negatives which were damaged and the original building drawings were lost. Approximately 70% of the print collection and 30% of the negatives were damaged, but could be restored. She discussed moving other archival materials to the Atlanta History Center.
